By executing this document, I agree to hold the releasees harmless for any injury or loss of life which may occur to me during Snorkeling, Skin and/or Scuba diving activities and/or instruction.
3. By entering into this agreement, I am not relying on any oral or written representation or statements made by the releasees, other than what is set forth in this agreement. I further agree that this Agreement shall be governed by and interpreted in accordance with the laws of the State of California, United States of America.

Diver Medical | Participant Questionnaire

Recreational scuba diving and freediving requires good physical and mental health. There are a few medical conditions which can be hazardous while diving, listed below. Those who have, or are predisposed to, any of these conditions, should be evaluated by a physician. This Diver Medical Participant Questionnaire provides a basis to determine if you should seek out that evaluation. If you have any concerns about your diving fitness not represented on this form, consult with your physician before diving. If you are feeling ill, avoid diving. If you think you may have a contagious disease, protect yourself and others by not participating in dive training and/or dive activities. References to "diving" on this form encompass both recreational scuba diving and freediving. This form is principally designed as an initial medical screen for new divers, but is also appropriate for divers taking continuing education. For your safety, and that of others who may dive with you, answer all questions honestly.

Directions

Complete this questionnaire as a prerequisite to a recreational scuba diving or freediving course.
